So much possibilities when we go inside to be in this connection and then to launch it out into the world. And did we see, feel and hear so much - and a lot of fun in the process! I am loving to be with you all in these wonderful experiences.

"Affectiviteit" met Antoinette Lorraine

Affectivity is a Vivenica of Love.

It is the ability to be in a state of deep affinity with others, capable of generating feelings of love and friendship altruism, paternity, maternity and companionship. Through affectivity we identify with other people and are able to understand them, love and protect them. Affectivity is the expression of our identity. People with weak identity are incapable of love and they fear diversity. In Biodanza The feeling of love for humanity, expressed in actions, is linked to the evolutionary process of the species
